

Dedicated to improving our world by targeting **mental health** and **international development**

To continue the legacy of Robbie Curtis, 1997-2020

Our projects

Mental Health

- We fund teachers and lecturers in England and Wales to do the First Aid for Mental Health instructor (FAMH) training course. They will then be qualified to teach the Level 2 Award in FAMH to their students and other staff.

This will help young people recognise the signs of mental illness in others and encourage open conversations and awareness.

International Development

- We award an annual bursary for a Master's degree student at Nottingham University and we are fundraising to build a school in the Luangwa Valley, Zambia.

This will help to break the cycle of poverty and advocate self-sufficiency in Zambian communities.

Join our journey and find out how you can get involved, visit www.rworld.org.uk

R World is a charitable foundation in memory of Robbie Curtis, with the initiative to promote positive mental health, and support development projects in Africa.

R World is a charity registered in England and Wales (1193184).
